FDA Food Contact Status Statement

04/30/2013

To whom it may concern,
KNF Clean Room products Corporation confirms that clean room polyethylene grades, as manufactured and shipped from our facilities, can be used in complying with Title 21 of the Code of Federal Regulations, CFR, per the conditions below:

FCP-1000 is comprised of a blend of homopolyethylenes as defined under §177.1520(a)(2)(i) and complies with extractive limitations set forth under ¶ (C) 2.1. This product contains no formulation additives. CFB-1000 may be used in non-cooking applications pursuant to ¶(c)2.1. under §177.1520. FCP-1000 may be used in food contact applications defined by Parts 175, 176, and 177 subject to the provisions of use and food contact types specified under each Part.
Fruth Custom Plastics confirms that FCP-1000 is produced with raw materials and operating practices that would not render the polymers unsafe or unsuitable for contact with food within the meaning of section 402 and 409 of the Federal Food and Cosmetic Act, and it's implementing regulations including the Good Manufacturing Practice regulation, 21 CFR § 174.5 "General provisions applicable to indirect food additives".
Finally, it is your responsibility to determine that our product is safe, lawful, and technically suitable for you intended uses. Please note that this letter is provided to you as one of the means to assist you in analyzing our product, and does not serve to modify or amend our sales arrangement of contract with you or your company.
Fruth Custom Plastics does not endorse or claim suitability of it's product for any particular use. Fruth Custom Plastics makes no warranty of merchantability as to its products. Fruth Custom Plastics makes no warranties, express or implied, concerning the suitability or fitness of any Fruth Custom Plastic product for any particular use. Fruth Custom Plastics liability and your exclusive remedy for any claim arising out of the sales of its products are expressly limited at Fruth Custom Plastics option to replacement of non-performing goods or payment not to exceed the purchase price plus transportation charges thereon in respect to any material which damage is proven or claimed.
The information in this letter is valid for cited regulations published as of the date this document was prepared. Updates may be prepared as the regulations are amended or pending revised information about the resin.
If further information is needed, please do not hesitate to contact me.
Thank you.

Sincerely;

Tony Shouga
